

Island Life

Janet Jackson

Come into this sacred and erotic dream
It's a world I know you want to share
Baby, let's indulge in things that set our bodies free
Promise me that you will meet me there

What better way then to wind down
On streets paved in harmony
I like the sexy sounds
From the DJ

Island in the sun
Just you and I will go
Ride into the wave like echo
When I hear that song
I want to be with you
Headed for the nightlife echo

Close my eyes and there you are in front of me
Takin' me to where I want to go
Baby, from my little shop of curiosities
Boy I'll show you all you need to know
Come on baby

What a better way
Then to wind down
On the streets paved in harmony
I like the sexy sounds
From the DJ
Damn I think he's spinning this one for me

Island in the sun...

What a better way
Then to wind down
On streets paved in harmony
I like the sexy sounds
From the DJ
Damn I think he's spinning this one for me
(This ones for me)

Island in the sun... (2x)

Island life sunshine and paradise
All night I want to give it to you
Island life sunshine and paradise
Every night I'm gonna give it to you
(Gimme the high life)
Island life sunshine and paradise
All night I want to give it to you
(Gimme the good life)
Island life sunshine and paradise
Every night I'm gonna give it to you
(Gimme the high life)
(Gimme the good life)
