Lonely

Janet Jackson

Feeling so alone and deserted
With people standing all around you
Should I trust someone
Should I stay off to myself
Alone with no one to talk to
It's such a helpless feeling

So any time you feel the need
Call me when your lonely
Cause everybody needs a friend
To be there when they're lonely

So don't isolate yourself
Every time that I come around
A person all alone
Is an unhappy one
We need somebody near to love us

Someone who cares
Living life all by yourselves
Impossible to do and I'll be there for you

Anytime you feel the need
Call me when you're lonely
Cause everybody needs a friend
And I'll be yours if you are lonely

(And your all alone)

If you're all alone
And a friend you need
Like a river flows
You hurt; I'll bleed
If you trust in me
We can find away
Take away the pain
Time heals all things
Even a lonely state of mind
'cause happiness is oh so hard to find

If your lonely I will be there

So anytime you feel the need
Call me when your lonely
Cause everybody needs a friend
To be there when they're lonely
