

## Fall In Love With Me

Japan

A summerhouse in Texas  
Searching for Siberia  
Pioneering underground  
We looked a lot like you  
Now work is done, the table set  
Deliver insufficient sound

Oh my, fall in love with me  
Oh my, fall in love with me

Cross military lines  
Nobody would believe us now  
The weather working with us  
We looked a lot like you  
Now every boy's a refugee  
Living for the moment

Through the shrieking wails  
Trans-European overseas  
Silently leaving Amsterdam  
We looked a lot like you  
Shy away from standard life  
Each bitter moment lingers on
