

Losing My Head

Jason Chen

What did I say, what did I do,
Why does it always come to this?
One look in your eyes, trying not to fight
Just turning, we were so in love.

I swear you were the only one that I could see
Our love's only soaring, callin just went falling and I can't take no more.

You take me so high, so we fall down so low
Every moving I had from the words that we said
I'd hold you so close until we're flying so low
I'm losing my head, my head tonight.

The good and the bad, show me all when you're mad,
How do you ever make this last?
The highs and the low, just leave a few on the go,
Can't even believe we're still in love

I swear you were the only one that I could see
Our love's only soaring, callin just went falling and I can't take no more.

You take me so high, so we fall down so low
Every moving I had from the words that we said
I'd hold you so close until we're flying so low
I'm losing my head, my head tonight.

You take me so high, so we fall down so low
Every moving I had from the words that we said
I'd hold you so close until we're flying so low
I'm losing my head, my head tonight.

You take me so high, so we fall down so low
Every moving I had from the words that we said
I'd hold you so close until we're flying so low
I'm losing my head, my head tonight.
