

Don't Make Me Wait

Jazmine Sullivan

I don't want your number, boy, just want your body,
You can keep the conversation for some other hottie.
I got a one-tracked mind, baby, don't worry!
No dinner dates and movies, just come on and hurry.

If you're a...
Left right keep it tight,
Doing things I know you like,
Do your job and I just might
Bring you home tonight!
It goes...
Left right keep it tight,
Doing things I know you like,
Do your job and I just might
Bring you home tonight!

Don't make me wait too long,
Just play my favorite song,
I'll get my vanity six on!
Don't make me wait too long,
Just play my favorite song,
I'll get my vanity six on!

Don't need no roses
Ain't like them other chicks
If you don't wanna comply
Then I can find another... oh
I'm not a nasty girl
Just being honest
If you think my mouth is bad,
Baby, just watch this

It goes...
Left right keep it tight,
Doing things I know you like,
Do your job and I just might
Bring you home tonight!
It goes...
Left right keep it tight,
Doing things I know you like,
Do your job and I just might
Bring you home tonight!

Don't make me wait till dawn.
I'll get my vanity six on!
Out of my favorite six songs!
Don't make me wait till dawn,
I'll get my vanity six on!
Out of my favorite six songs!

Every girl can do it
It's all in how you move it
Get your vanity six on
Every girl can do it
It's all in how you move it
Get your vanity six on

Left right keep you tight,
Doing things I know you like,
Do your job and I just might
Bring you home tonight!

It goes...

Left right keep you tight,
Doing things I know you like,
Do your job and I just might
Bring you home tonight!

Don't make me wait too long,
Just play my favorite song,
I'll get my vanity six on!
Don't make me wait too long
Just play my favorite song,
I'll get my vanity six on!
