

Heaven can't lie

Jeanette

Baby I can see maybe what you are tryin' but not
denying to me
Baby I think it's sneakin' all of that freakin' when
you are right here with me now

Baby don't even got there since they are not fair all
of the things you have played

An' I'll look for some progress when I'm in a mess it
won't be tearing on me hey

Please tell me heaven can't wait
It seems so magical, tragical
I know heaven can't lie
I feel you show me a must-see
Paradise to me
No better places to be
Please tell me heaven can't lie
I guess there's no better time than tonight

You have been really nasty, pretty much naughty, so now
I'm waitin' to see
Right here bein' in heaven you show our true face '
cause you can't hide it from me

Baby you will discover you ain't no lover courting me
up in the sky
Baby gotta be better, give it some hard work, I wanna
see that you try

Please tell me heaven can't wait
It seems so magical, tragical
Heaven can't lie
I feel you show me a must-see
Paradise to me
No better places to be
Please tell me heaven can't lie
I guess there's no better time than tonight

Please tell me heaven can't wait
It seems so magical, tragical
Heaven can't lie
I feel you show me a must-see
Paradise to me
No better places to be
Please tell me heaven can't lie
I guess there's no better time than tonight
