

Solitary Rose

Jeanette

Just like an empty will
I was standing still
Cause I always thought someone
Had to come and save me

But I won't be afraid to be alone, no
Cause everyone will find their heart

Here I am
Found myself
With a whole world close
And a thousand ways to go
I'm a solitary rose

And I've always been told
That I could reach the moon
Cause you have to ... away
So I complicated things

And I won't be afraid to be alone, no, no
Cause everyone will find their heart
Now I know

That here I am
I've opened my door
Found myself
Not scared no more
With a whole world close
And a thousand ways to go
I'm a solitary rose

Was I right was it wrong to leave you?
Or should I maybe fight to keep you?
No one knows
Let's leave it to fade
The day might come

Here I am
I've opened my door
Found myself
With a whole world close
And a thousand ways to go
I'm a solitary rose

With a whole world close
And a thousand ways to go
I'm a solitary rose
