

All About You

Jerrod Niemann

Seems everywhere I go these days
I run into friends that say
It's written on my face
I'm all about you

So if you ever walk through the door
And wonder what I'm smiling for
It's cause I could not ask for more
I'm all about you

Oh, I'm all about the way you kiss me baby
All about those little things
You dot hat got me going crazy

You know, you know, you know it's true
I'm all about you
So fi there ever comes a day
Another girl comes my way
I'll never hesitate to say
I'm all about you

But what I love the most is when we lay down
Hold each other close and there ain't no doubt
Where I wanna be 'cause you're all about
You're all about me, yeah, oh

Baby, baby,
You know, you know, you know it's true
I'm all about you
