

Leave Me Alone

Jerry Cantrell

Blame me
Save a prayer for those who haunt you
There now
I don't mind if you still love me

Don't come over, hear what I say
Don't come over, hear what I say
Don't come over, hear what I say
Just leave me alone
Leave me alone

Shame me
Hide your heart from those who hunt me
Way down
Would you care if I still need her

Don't come over, hear what I say
Don't come over, hear what I say
Don't come over, hear what I say
Just leave me alone

Save me
Taken far from those who flaunt you
Calm down
Drag your heart and you behind her

Don't come over, hear what I say
Don't come over, hear what I say
Don't come over, hear what I say
Just leave me alone
Leave me alone
