

# Don't It Make You Wanna Dance?

**Jerry Jeff Walker**

I've been gone for so long, don't it feel good to get back home  
To the friends and the people that you'd love to see  
There's a twinkle that's in her eye both smiling as you go by  
They know what you what you really wanna feel

Don't it make you wanna dance, don't it make you wanna smile  
When you're down, down, down in the country they can sing a while  
Don't it make you wanna dance, don't it make you wanna smile  
When you're down, down, down out in the country they can sing a while

Don't it feel just right tonight, gettin' lose 'neath the old moonlight  
Gettin' down, gettin' funky, gettin' hot, gettin' real  
Everyone has found a grin, so when the chorus comes around join in  
Come on people won't you tell me how you really feel
