

What Are We Doing

Jerry Jeff Walker

Yeah, I'm sittin' here, drinkin' again
I'm just spendin' some time with my friend
Then I know that I should be by your side
What am I doin' with our lives?

I know that you are someplace tonight
And I hope you're happy and you're all right
But you know it's true, just a couple of fools
What are we doin' with our lives?

Yeah, you know that I want you, you want me too
What in the world girl, are we tryin' to prove?

You're sittin' all by yourself
Pretending you found someone else
You know it's true, just fools, foolin' fools
What are we doin' with our lives?
