

Finish What We Started

Jessie Ware

Wanna be closer than close
Baby you already know
I want you
I want you

Tell me the door isn't closed
I'm telling you nobody knows
I want you
I want you

I've been waiting here
I deserve this kiss

Are we gonna finish what we started?
Only one thing left here to do
Are we gonna finish what we started?
Or we end

Are we gonna finish what we started?
Only one thing left here to do
Are we gonna finish what we started?
Or we end

When you look at me that way
I run out of reasons to say
I don't want you
But I want you

Words from my mouth can't explain
What the rest of my body is saying
I want you
I want you

I've been waiting here
I deserve this kiss

Are we gonna finish what we started?
Only one thing left here to do
Are we gonna finish what we started?
Or we end

Are we gonna finish what we started?
Only one thing left here to do
Are we gonna finish what we started?
Or we end

Are we gonna finish what we started?
Only one thing left here to do
Are we gonna finish what we started?
Or we end

Are we gonna finish what we started?
Only one thing left here to do
Are we gonna finish what we started?
Or we end
