

Family Song

Jimi Blue

I am far away
from home righth now
my family
i miss somehow
mum, dad, cheyenne and wilson my brother
we care so much
about each other
i am happy to be
a part of this
without them
I could not exist
i tell the man
i must be blessed
in what i do
i give my best
i saw my father
in "The Submarine"
he's a hero
on the moviescreen
next generation
living a dream
together, supreme
a super team
my family
they back me up
some people really
tried to set me up
empty words
what's real, what's true
so i just tell them:

There is no need to, please me
I was born as conect with a
And my dad he's a dude
supporting everything i do
Feal this: i will rule
cause my family is cool
yes, my mom, she's a mom
supporting everything i do
cause my family is cool
yes, my family bad rule

I walkes the line
performed myself
and daddy came
to my daddy mom
Straight from the heart
i really care
If there's a problem
My family is there
Berlin, London a return
Yeah, i travelled the world
there is much to learn
I'm working hard
I'm not between
I know for sure
that i will rock the field

They have protected, supported me
I'm glad to have my family
Sometimes it's crazy
Sometimes it's wild
But we always treat each other right
My family, they back me up
Some people really tried to set me up
Empty words, what's real, what's true

Yeah, dedicate this song to my family
Thanks for always being there for me
Thanks for helping me in hard times
Thanks for all your support and back-up
Thank you for the way you raised me
Thank you, for always letting me do, what i wanted do
I appreciate it and i won't forget it
This song is for you

There is no need to, please me
i was born as a natural???
And my dad he is a dude
supporting everything i do
hear this always?
cause my family is cool
yes, my mom, she's a mom
supporting everything i do
cause my family is cool
yes, my family they rule
