

# Safe In These Arms

Jimmy Somerville

Here in these arms  
Our history began  
Before there was you  
There was thirst in my heart

Look at my lips, you will see  
I have drunk from the river  
That flows to the sea  
Of true love

Safe in these arms, arms  
That's where I want to be  
Safe in these arms, arms  
That's where I want to be

Safe in these arms, arms  
That's where I want to be  
Safe from the harm in these arms  
That's where I want to be

If I may die  
Let it be here with you  
For here with you  
I shall surely be safe

Safe from the hate, from the lies  
From the vultures of Christ  
I need no Gods  
I have no fears, I have you

Safe in these arms, arms  
That's where I want to be  
Safe in these arms, arms  
That's where I want to be

Safe in these arms, arms  
That's where I want to be  
Safe from the harm in these arms  
That's where I want to be, yeah

Safe in these arms, arms  
That's where I want to be  
Safe in these arms, arms  
That's where I want to be

Safe in these arms, arms  
That's where I want to be  
Safe from the harm in these arms  
That's where I want to be

Never let me, never let me  
Say you'll never let me go  
Never let me, never let me  
Say you'll never let me go

Say you'll never let me  
Say you'll never let me go

Say you'll never let me  
Say you'll never let me go

Take me in your arms  
Take me in your arms  
Take me in your arms  
And say you'll never let me go

Take me in your arms and hold me  
Take me in your arms and hold me  
Take me in your arms and hold me  
Say you'll never let me go

Say you'll never  
Say you'll never  
Say you'll never let me go  
Take me in your arms and hold me  
Never, never let me go
