

Something To Live For

Jimmy Somerville

Doesn't seem that long since hope was out of mind
And I was just surviving for the day
Suddenly a combination came my way
Giving me the strength for come what may

I've got something to live for
Got a reason to want more
Ain't going down
I intend to hang around

I've got something to live for
Got a reason to want more
Ain't going down
I intend to hang around

All the dreams I thought that I could never make
And fear is now a million miles away
The choice is mine and I'm alive in heart and head
I swallow my protection everyday

I've got something to live for
Got a reason to want more
Ain't going down
'Cause I intend to hang around

I've got something to live for
Got a reason to want more
Ain't going down
'Cause I intend to hang around
I've got something to live for

I, I, I, I, I ain't going down
'Cause I, I, I intend to hang around

I've got something to live for
Got a reason to want more
Ain't going down
I intend to hang around

I've got something to live for
Got a reason to want more
Ain't going down, down
'Cause I intend to hang around

I've got something to live for
Got a reason to want more
Ain't going down, ooh
I intend to hang around

I've got something to live for
Got a reason to want more
Ain't going down, down, down
'Cause I intend to hang around

I've got something to live for
Got a reason to want more
Ain't going down, no

I intend to hang around

I've got something to live for
Got a reason to want more
