

# You Are My World

Jimmy Somerville

There is nothing boy that can stop my course  
I will hold you tight never let you go  
Tomorrow's party will never end  
Like a bud in spring our love will bloom and grow

Your eyes to me are precious stones  
On a face that's made of a solid gold  
When I hold your hand I want to cry  
And your loving arms to protect me from the cold

You are my world  
You are my world  
You are my world  
You are my world

The soul inside now belongs to you  
I'm drowning in a love so deep  
We will overcome those ups and downs  
So happiness is forever ours to keep

I will follow you till the end of time  
And I will be the blood flowing through your veins  
I will ride with you till the end of the line  
You will be my everything, my world

You are  
You are  
You are  
You are  
You are  
You are my world

You are my world  
You are my world  
You are my world  
You are my world

You are my world, my world, my world, my world, my world  
You are my world, my world, my world, my world, my world  
You are my world, my world, my world, my world, my world  
You are my world, my world, my world, my world, my world

You are, you are, are my world  
You are, you are, are my world, my world  
You are, you are, are my world  
You are my world

I will follow you till the end of time  
And I will be the blood flowing through your veins  
I will ride with you till the end of the line  
You will be my everything, my world

You are  
You are  
You are  
You are  
You are

You are my world

You are, you are, are my world  
You are, you are, are my world, my world  
You are, you are, are my world  
You are, you are, are my world

You are, you are, are my world  
You are, you are, are my world, my world  
You are, you are, are my world  
You are, you are, are my world

You are, you are, are my world  
You are, you are, are my world, my world  
You are, you are, are my world
