

Heartrock

JLS

Super ecstatic I'm manic
I know the beat don't lie
So dramatic erratic
I think I'm losing my mind
Lets go fast and lets go slow
Take it high and take it low
We own it we own it

It's so contagious outrageous
The kind that money can't buy
Changed my status to greatest and hope my baby don't lie
Keep it moving don't you stop
From the bottom to the top
We own it

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin
Keep my heartrock rockin rockin
You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin
Keep my heartrock rockin rockin

My pulse is racing like crazy
I feel a pound in my chest
I don't think I can take it if you keep moving like this
There's a place I wanna go
Baby we could be alone for a moment
Lets hold it

The citys ready and waiting
Lets go and hit it right now
Place is pumpin and shakin
It's about to get loud
Turn it up it's going down
Like a bomb hits the ground
You know it

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin
Keep my heartrock rockin rockin
You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin
Keep my heartrock rockin rockin (you keep my heart rockin)
