

In Between Every Heartbeat

JLS

Stop telling me not to think about her
Stop telling me not to worry about her, cause I can't
You know that I can't, noo.
Stop telling me that you'll never be mine
I don't wanna hear cause I know its gonna happen in time
She's gonna be mine, noo.

You know, you know
That he don't deserve you baby
I know, I know
You're not happy with him
You know, you know
You can do much better baby
Let go and let me breathe in.

It's like you're in between every heartbeat
Nothings ever been the same since I met you
It's like you're in between every heartbeat
It goes boom and you and boom and you.
All I wish is that you tell me you want me
No one else is gonna love you like I do
It's like you're in between every heartbeat
It goes boom and you and boom and you.
Boom and you you you
Boom and you you you
Boom and

Tried and I've tried not to think about her
But the more that I try is the more that it burns in my chest
I don't wanna forget, noo.
What if this don't turn out right
You know she stays by his side
I atleast stop tried my best to wanna live in regret, noo.

You know, you know
That he don't deserve you baby
I know, I know
you're not happy with him
You know, you know
You can do much better baby
Let go and let me breathe in.

It's like you're in between every heartbeat
Nothings ever been the same since I met you
It's like you're in between every heartbeat
It goes boom and you and boom and you.
All I wish is that you tell me you want me
No one else is gonna love you like I do
It's like you're in between every heartbeat
It goes boom and you and boom and you.
Boom and you you you
Boom and you you you
Boom and you

I'm tired of, I'm tired of, I'm tired of talking about it
It's time I, it's time I, it's time I be about it
I'm not tryna, not tryna, not tryna leave without you
Let go and let me breathe in.

It's like you're in between every heartbeat
Nothings ever been the same since I met you
It's like you're in between every heartbeat
It goes boom and you and boom and you.
All I wish is that you tell me you want me
No one else is gonna love you like I do
It's like you're in between every heartbeat
It goes boom and you and boom and you.
Boom and you you you
Boom and you you you
Boom and you.
