Jodeci

Come and talk to me
Can i talk to you
Come and talk to me
K-ci

Yeah, we can do this
I wanna love you Girl i'm reaching out my hand
Trying to make you understand
That you don't have to be alone
Cause i wanna be your man
Girl i need you in my life
Just wanna live right by your side
So girl i won't be satisfied
Until you give this love a try

I'm in need of love
And baby you're in need of love
So what about us
On and on and on til the break of dawn, and it's on
I'm in need of love
And baby you're in need of love
So what about us
On and on and on til the break of dawn, and it's on

Can you feel, can you feel, can you feel me
I can feel you lady

If you come and get with me
Girl i can get down on my knees
So let me please let me do you lady
Cause i know just what you need

And baby you're in need of love
So what about us
