

# Around the Bend

Joe Bonamassa

Lord, I've come a long way  
And here's what I gotta say  
I've paid but I had to pay  
To play what I had to play

I was born in the country  
Straight in the town  
And I'll go anywhere  
To see what's going down

I've seen cowards and hero  
As fast as the wind  
I go down any road there is  
To see what's around the bend

And girls, I've had me a few  
Some were small and some were cute  
I've tasted the honey and dew  
Lord, I will be with You

I was born in the country  
Straight in the town  
And I'd go anywhere  
To see what's going down

I've seen cowards and hero  
As fast as the wind  
I go down any road there is  
To see what's around the bend

Can you let me rest my  
Weary head, weary head  
Let's find out what this life is  
Before we're dead  
Before we're dead

Lord, I've come a long way  
And here's what I have to say  
I've paid what I had to pay  
Lord, now I'm on my way

I was born in the country  
Straight in the town  
Well I'll go anywhere  
To see what's going down

I've seen cowards and hero  
As fast as the wind  
I go down any road there is  
To see what's around the bend
