## **Rock Of Your Love**

It ain't like I'm so tough You shook me to the heart You shook me sure enough

Turned my whole world upside down I tried to run away but I just ran aground

On the rock of your love On the stone hard truth On the rock of your love I found my living proof

You pierced through armor plated steel You tore into my soul And forced me to be real I feel the strength of 20 men When I am in your arms I smash those fears again

On the rock of your love On the stone hard truth On the rock of your love I found my living proof

I'm crashing like a wave tonight Upon your distant shore I have found the solid ground That I've been looking for

On the rock of your love On the stone hard truth On the rock of your love I found my living proof

On the rock of your love I found my living proof
