I Want To Hug You

John Lee Hooker

I want to hug you and kiss you and squeeze you Till my arms fall x2

And baby by that You know I love you so

Just come walk a little closer baby Let me show you what I mean $\ensuremath{\mathbf{x}} 2$

I want to hug you and kiss you and squeeze you Till my arms fall off

You give so much trouble baby You drive me out of my mind x2

I want to hug you and kiss you and squeeze you Till my arms fall off x2

And baby by that You know!
I love you so
