

# Mad Man Blues

John Lee Hooker

I go home at night about half past four  
All that knocking on my door

I got the mad man blues  
I got the mad man blues  
I got the mad man blues  
Man don't you know, don't you know

I love these women, gonna treat them right  
Ain't gonna fuss and ain't gonna fight

I got the mad man blues  
I got the mad man blues  
I got the mad man blues  
Man don't you know, don't you know

I got the mad man blues  
I got the mad man blues  
I got the mad man blues  
Man don't you know, don't you know

You beg me now baby and not before  
I'm gonna come round and kick your door

I got the mad man blues  
I got the mad man blues  
I got the mad man blues  
Man don't you know, don't you know

I don't want to fuss, I don't want to fight  
Ain't gonna do nothing but treat you right

I got the mad man blues  
I got the mad man blues  
I got the mad man blues  
Man don't you know, don't you know

I got the mad man blues  
I got the mad man blues  
I got the mad man blues  
Man don't you know, don't you know

I got the mad man blues  
I got the mad man blues  
I got the mad man blues  
Man don't you know, don't you know
