

# Baby Please Don't Go

John Lennon

You know I love you, baby, please don't go, well, well  
You know I love you baby, please don't go  
Oh, you know I love you, honey child

There's nothing that I wouldn't do for you right now  
You know I love you, baby, please don't go, well, well  
You know I need you, honey, please don't go, well, well  
You know I love you baby, please don't go  
And you know I love you, honey child

There's nothing that I wouldn't do for you right now  
You know I love you, baby, please don't go  
You know I want you, honey, please don't go, well  
You know I want you baby, please don't go  
You know I love you, honey child

There's nothing that I wouldn't do for you right now  
You know I love you, baby, please don't go, well  
You know I want you, honey, please don't go  
You know I want you baby, please don't go  
You know I want you, honey child

There's nothing that I wouldn't do for you right now  
You know I love you, baby, please don't go, well
