

## O'Sanity

John Lennon

It's only sane to be insane  
Psychotic builds a castle and neurotic lives in it  
I don't know what to do with my sanity  
When the world's at the verge of calamity

O' sanity  
O' sanity  
What am I to do with you  
Drink up, shoot up, anything you please  
But you're always standing behind me like a devil in hell

O' sanity  
Sanity  
Why don't you let me go  
Let go, let go, cut it out!
