

Solid Air

John Martyn

You've been taking your time
And you've been living on solid air
You've been walking the line
And You've been living on solid air
Don't know what's going wrong inside
And I can tell you that it's hard to hide when you're living on
Solid air.

You've been painting it blue
And you've been looking through solid air
You've been seeing it through
And you've been looking through solid air
Don't know what's going wrong in your mind,
And I can tell you don't like what you find,
When you're moving through
Solid air.

I know you, I love you
And I could be your friend
I could follow you, anywhere
Even through solid air.

You've been stoning it cold
You've been living on solid air
You've been finding that gold
You've been living on solid air
I don't know what's going on inside
I can tell you that it's hard to hide
When you're living on
Solid air, solid air.

You've been getting too deep
You've been living on solid air
You've been missing your sleep
And you've been moving through solid air
I don't know what's going on in your mind
But I know you don't like what you find
When you're moving through
Solid air, solid air.

I know you, I love you
I'll be your friend
I could follow you, anywhere
Even through solid air.

You've been walking your line
You've been walking on solid air
You've been taking your time
But you've been walking on solid air
Don't know what's going wrong inside
But I can tell you that it's hard to hide
When you're living on
Solid air, solid air.

You've been painting it blue,
You've been living on solid air
You've been seeing it through

And you've been living on solid air
I don't know what's going on in your mind
But I can tell you don't like what you find
When your living on
Solid air, solid air.

I know you, I love you
And I'll be your friend
I could follow you, anywhere
Even through solid air.

Ice blue solid air
Nice blue solid air
