

# Don't Worry 'bout Me

John Parr

I suppose the record shows that I'm a loser now  
All I need is one more chance, oh baby  
I've been waiting a lifetime for someone like you  
I promise you this time, that I can really see it through

Don't worry 'bout me, that's all ancient history  
Ooh baby you make me strong, if we're together, we can't go wrong  
Now I find the dye is cast, and this must be the last  
Time for me, but is love blind, oh baby  
I've been waiting a lifetime for someone like you  
I promise you this time, that I can really see it through
