

# Muddy Waters

Johnny Cash

Mary grab the baby river's risin' muddy water taking back the land  
Old frame house she can't take no more beatin' ain't no use to stay and make a stand  
Well the morning light showed water in the valley  
Daddy's grave just went below the line  
Things they say you just can't take 'em with you  
The flood will swallow all you leave behind  
Won't be back to start all over cause what I've held before is gone  
Mary take the child the river's risin' muddy water taking back my home

The road is gone there's just one way to leave here  
Turn my back on what I've left below  
Shiftin' lands broken farms around me muddy water's changin' all I know  
Hard to say just what I'm losin' ain't never felt so all alone  
Mary take the child the river's risin' muddy water taking back my home

Won't be back to start...  
That muddy water taking back my home  
Muddy water's taking back my home muddy water taking back my home
