

# Nobody Knows (How Much I Love You)

Johnny Mathis

I was on a street with a common name  
I prayed for love, yeah, I even begged  
I had a vision of you, that carried me through

Now it's just magic worlds in a shaman's dream  
I fear no man, I fear no pain  
I had a vision of you that carried me through

And nobody really knows what I would do for you  
Nobody really knows how much I love you  
Nobody really knows, nobody knows  
Nobody knows, nobody knows

I cleared my mind and I turned around  
Grateful to the one who had laid me down  
I was silent in love pourin' down from above

Like so much rain it fell and pierced my brains  
The trees all alive with their colors like the dreams of man  
I had a vision of you that carried me through

And nobody really knows what I would do for you now  
Nobody really knows how much I love you, baby  
Nobody really knows, nobody knows  
Nobody knows, nobody knows, nobody knows, yeah

I was on a street, yeah, with a common name  
I prayed for love, oh baby, I even begged  
I had a vision of you that carried me through

And nobody really knows what I would do for you  
Nobody really knows how much I love you  
Nobody really knows, nobody knows  
Nobody knows, nobody knows  
Nobody knows, nobody knows, yeah

Nobody knows, nobody knows, oh  
Nobody knows how much I love you  
Nobody knows how much I  
Just what I'd, just what I'd do  
Just how much, just how much, baby
