## **Something to Live For**

## **Johnny Mathis**

I want something to live for Someone to make my life an adventurous dream Oh, what wouldn't I give for Someone who'd take my life and make it seem Gay as they say it ought to be

Why can't I have love like that brought to me? My eye is watching the noon crowds Searching the promenades seeking a clue To the one who will someday be my Something to live for Something to live for Something to live for
