

# This Is a Time for Love

Johnny Mathis

Oh yeah, yeah  
Oh yeah, yeah  
Oh yeah  
Go

This may be my last time, so I'm a do whatever  
This may be my last chance, for me and you together  
I can be your honeycomb (Your honeycomb)  
And we can fly together  
You're so sweet, I taste it baby  
I just, I just

I wanna see you putting it together like a number  
Multiply the times we done took it all off  
Or maybe, we should just add up our love  
I know your heart, your kiss  
Drives me crazy, babe  
We don't gotta fake this shit when we're loving  
Cause the other ones got it and they be lying about it  
Can't live a day in our life  
Just do what you you like

Do what you like  
Do what you like  
Do what you like  
Come on baby, It's your world I wanna live in, and I'm loving this feeling  
Do what you like  
Do what you like  
Do what you like  
Just like that, girl I know you like that  
And we only got time to love

This won't be my last chance, so I'm a do whatever  
It takes to get you out here  
So I'm a be smooth and clever  
Let me get in your comfort zone  
Girl we can move together  
Spinning 'round, I got you baby  
I just, I just

I wanna see you putting it together like a number  
Multiply the times we done took it all off  
Or maybe, we should just add up our love  
I know your heart, your kiss  
Drives me crazy, babe  
We don't gotta fake this shit when we're loving  
Cause the other ones got it and they be lying about it  
Can't live a day in our life  
Just do what you you like

Do what you like  
Do what you like  
Do what you like  
Come on baby, It's your world I wanna live in, and I'm loving this feeling  
Do what you like  
Do what you like  
Do what you like

Just like that, girl I know you like that  
And we only got time to love

Do what you like  
Do what you like  
Do what you like  
Come on baby, It's your world I wanna live in, and I'm loving this feeling  
Do what you like  
Do what you like  
Do what you like  
Just like that, girl I know you like that  
And we only got time to love

Said we only got time (we only got time to love)  
We, we only got time (we only got time to love)  
To love, to love (we only got time to love)

Do what you like  
Do what you like  
Do what you like  
Come on baby, It's your world I wanna live in, and I'm loving this feeling  
Do what you like  
Do what you like  
Do what you like  
Just like that, girl I know you like that  
And we only got time to love

Do what you like  
Do what you like  
Do what you like  
Come on baby, It's your world I wanna live in, and I'm loving this feeling  
Do what you like  
Do what you like  
Do what you like  
Just like that, girl I know you like that  
And we only got time to love

Yeah, time to love  
Said we only got time to love  
Said we only got time to love, baby
