

While We're Young

Johnny Mathis

In my heart and my soul I can feel this is right
And I know my bones will grow old and my body get lost in the night

'Cause money can't buy back the youth of your life
when you're older, you're older, you're old

So let's dance in style
let's go dance for a while
While we're young, young, young

Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones

In this moment of mine I can feel this is right
Four in the morning, just searching
Now you must know what that's like

'Cause money can't buy back the love of your life
When you're older, you're older, you're old

So carry the weight of our biggest mistakes
On our shoulders, our shoulders, our shoulders

Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones

Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones

We're getting older
But you're still in my soul, soul

We're getting older
But you're still in my soul, soul

Something in my heart
Feel it in my, my, my soul

Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones

Something in my heart tonight
Feel it in my soul
'Cause money can't bring back the stuff in your life
When you're young, young, young
