

Anything for Your Love

Johnny Winter

God's got a plan, He's makin' it clear
Sweet little love song in your ear
Hearts like diamond, true love will prevail
Put a little wind in your sail

I would do anything, anything
You could dream of
I would do anything, anything
For your love, for your love

Listen baby, I gotta tell you true
Just how much that I love you
I got a sweet feeling, I know is real
This kind of love you can't conceal

I would do anything, anything
You could dream of
I could do anything, anything
For your love, for your love

I would do anything, anything
You could dream of
I could do anything, anything
For your love, for your love
For your love, for your love
For your love
