

It Ain't Your Business

Johnny Winter

You was wonderin' what was happenin' the other night
When I pulled down the shades and I turned off the
light

But it ain't your business
No, it ain't your business
No, it ain't your business
Better leave my affairs alone

Well let me cook my own dinner and I wash my own
clothes
I give my baby all my money, still she turns up her
nose

But it ain't your business
Still, it ain't your business
No, it ain't your business
Better leave my affairs alone

Yes, yes

When I leave my house, just to walk the street
You know she's standin' in the door and she's with
other people

But it ain't your business
Still, it ain't your business
No, it ain't your business
Better leave my affairs alone

Whoah, look out!

[Instrumental]

Oh you was wonderin' what was happenin' the other night
When I pulled down the shades and I turned off the
light

But it ain't your business
No, it ain't your business
Yeah it ain't your business
Better leave my affairs alone

Yes, yes!

Yeah I cook my own dinner and I wash my own clothes
I give my baby all my money, still she turns up her
nose

But it ain't your business
Oh it ain't your business
Well, it ain't your business
Better leave my affairs alone

Yeah, leave my affairs alone!

[Instrumental]

Oww!

When I leave my house, just to walk the streets
You know she's standin' in the door and she's with
other people

But it ain't your business
Oh it ain't your business
Ain't your business
Leave my affairs alone

Whoah, gotta leave my affairs alone, baby!
