

Still Alive and Well

Johnny Winter

Did you ever take a look to see who is left around?
Everyone I thought was cool is six feet underground
They tried to get me lots of times
But now they're coming after you
I got out and I'm here to say
Baby you can get out too

I'm still alive and well, still alive and well
Every now and then I know it's kinda hard to tell
But I'm still alive and well
Still alive and well, still alive and well
every now and then I know it's kinda hard to tell
Still alive and well

When I think about the past it only brings me down
Let's make love in the grass while the sun is shinin' down
It feels so good your long blond hair, baby
When you're way down low, make me shake
Make the whole earth quake, so everyone will know

Still alive and well, still alive and well
Every now and then I know it's kinda hard to tell
Still alive and well, still alive and well
Every now and then I know it's kinda hard to tell
But I'm still alive and well
