

Well I laid down last night and I turned my TV on
You know I laid down last night I turned my TV on
You know as I get old, people but I believe my tube is
blown.

Well my baby she was cryin' want me to get my tv fixed
Oh, she was cryin', wanna get my tv fixed
She said a TV service and she need it mighty quick right
a way now.

Well I called the TV doctor he came over right away
He said he'll see what he can do here to haul my set away
I told no damn well I'll never do, man if you don't get
the picture.

I'm gonna do some work on you work a while go ahead now,
got my T.V. working
My old tube is like brandnew and now I got my tv workin'
My old tube is like brandnew, yes, come over baby and I
show my tube to you haha
How do you like my tube ?
