

# Kingdom Come

Jon Bellion

Yes, I came up with my people and they love what I've become  
As our enemies retreat, watch them run  
I'm the story line of Simba as we watch the rising sun  
Living prophecy is me, kingdom come

On the balcony  
With a light skin queen by my side  
Rides like Valkyrie  
Let the future fall in place while we are young  
Young, young, young, young, young, young, young  
I said to my queen we've just begun  
Kingdom come

Demons seem so small  
They're the same one's that I've fought in all my nightmares  
And conquered in my dreams, we have won  
As I watch them fall I begin to realize my only enemy is me  
Kingdom come, kingdom come

I heard melodies from angels so I played them, I'm the one  
Now my heroes asking me where I'm from  
I'm the story line of Simba as we watch the rising sun  
Living prophecy is me, kingdom come

On the balcony  
With a light skin queen by my side  
Rides like Valkyrie  
Let the future fall in place while we are young  
Young, young, young, young, young, young, young  
I said to my queen we've just begun  
Kingdom come

Demons seem so small  
They're the same one's that I've fought in all my nightmares  
And conquered in my dreams, we have won  
As I watch them fall I begin to realize my only enemy is me  
Kingdom come, kingdom come

Kingdom come
