```
If I've told you once, I've told you a thousand times
You can't go on playing with people's minds
But you lied thinking that you'd get by
Breaking hearts one by one in a line
Cause you're driving me crazy
I just can't go on making love to a woman
Who's been playing with me all along
So don't do that to me anymore
I can count the times you really made me a fool
I guess what we've got was a different set of rules
Well you cried, thinking that I'd breakdown
But I'm not sure I need you hanging around
Cause you're driving me crazy
I just can't go on making love to a woman
Who's been playing with me all along
Don't do that to me anymore
You wont have me to kick around anymore
I'm not a fool for you and that's for sure
No reason left for you to try to pretend
I told you before now I'll say it again
Don't do that to me anymore
```
