Already In

Jon McLaughlin

It's you to me Your gentle face Overdue, worth the wait And out of my reach But I'm reaching out for you Me to the night I say goodbye The time is up I fight the time A needed award I can't afford A finished song One more cord And it's already in my mind I'm in over my head inside And it's already in my mind Inside Inside Everyone's back Hearts at war With all the plans I had before And I'm losing my grip But, I'd lose it all for you So I go driving all around And I'm denying all the sounds that hit my ear Drum the beat of a heart I can't defeat And so it's already in my mind I'm in over my head inside And it's already in my mind Inside Inside Already in Already in
