

# Beating My Heart

Jon McLaughlin

There are times every now and then  
I forget why I'm breathing out  
And why I'm breathing in  
And I get so sick with the little things  
I can't relax when it's happening  
To know what it means  
It means

And then I open my eyes  
And I know you're beating my heart, beating my heart  
Look at the sky  
I know you're beating my heart, beating my heart  
I go extra miles to show  
That you are the one thing that I've got  
Look at the sky  
I know you're beating my heart, beating my heart

There's a sun coming over the horizon  
I wanna know where it's coming from  
But doesn't everyone  
It's like who am I and why am I here

This whole world will take me down  
Without you standing by my side  
My side  
You're holding onto me  
You're making everything inside  
Come alive
