

# Fire

Jonas Brothers

Nobody's gonna wanna get next to me  
'Cause they know  
I take what's mine and won't let it go  
Doesn't matter how you approach the scene  
Just hope  
You're everything and more when you hit the door

I dare you to challenge me  
You'll be begging for mercy please  
Just watch I'll give you something to follow  
'Cause I've been waiting so patiently  
(To let the) fire come out in me  
I'm what you're up against,  
Just Letting You Know

I keep giving you the fire  
Imma heat it up  
Under my control  
Here's the night that you've been waiting on  
Fire  
Imma light it up  
Gotta make it hot  
The stage is mine, let's set it off

A king is knowing,  
No one can take his crown  
I'm so brave  
They can't cool me off when I hit the stage  
Burnin' hot,  
The spotlight just spelled my name  
I feel famous  
The crowd cheers me on they can't get enough

I dare you to challenge me  
You'll be begging for mercy please  
Just watch I'll give you something to follow  
'Cause I've been waiting so patiently  
To let the fire come out in me  
I'm what you're up against,  
Just Letting You Know

I keep giving you the fire  
Imma heat it up  
Under my control  
Here's the night that you've been waiting on  
Fire  
Imma light it up  
Gotta make it hot  
The stage is mine, let's set it off

I keep giving you the fire  
Imma heat it up  
Under my control  
Here's the night that you've been waiting on  
Fire  
Imma light it up  
Gotta make it hot

The stage is mine, let's set it off

Fire!
