

Heart and Soul

Jonas Brothers

Oh, yeah, alright, hmm

Gather 'round guys
It's time to start listening
Practice makes perfect
But perfect's not workin'
There's a lot more to music
than knowing where your cue's gonna be
You can play all the right notes
But that don't mean you're movin' me
But if you can jump like David Lee Roth
Or pump your fist like your Bruce "The Boss"

If you got a heart and soul
You can rock and roll
Rock and roll

Strummin'
Drummin'
Slide across from runnin'
The stage is your home if you learn how to own it
Like the great Stid
There's no way that you can fake it
You've got to feel the beat before you can move
Even though you're not wearing blue suede shoes
Makin' mistakes
But that won't matter
If you can swagg like 'ol Mick Jagger

If you got a heart and soul
You can rock and roll
You can rock and roll

[Solo]

If you live and you die
For the music inside
If the one for five never gets sold

Then you can rock and roll
Rock and roll

Alright now take it low
Now I need the spotlight to hit right here
As the crowd starts to cheer
I need the fan to blow right through my rock star hair
Right here

If you can scream like Axl Rose
Or sing like Xtina show after show

If you've got a heart and soul
You can rock and roll

If you've got a heart and soul
You can rock and roll
You can rock and roll

Oh, yeah
Oh, oh, yeah
You can rock and roll
