What Did I Do to Your Heart

Jonas Brothers

Baby girl, I'm just a bit confused You've been acting like you've been abused By me lately, what's going on?

All I do is treat you with respect All the best and never nothing less You continue to cry and I just don't know why

What did I do to your heart? What did I do to your heart? Did I break it apart? Did I break it? Your heart

What did I do to your heart? What did I do to your heart? Did I break it apart? Did I break it? Your heart

All I ever get is attitude Constant never ending bad mood from you, baby What's going on?

All I need is just an answer, please So I can show you what you mean to me But you continue to cry and I just don't know why

What did I do to your heart? What did I do to your heart? Did I break it apart? Did I break it? Your heart

What did I do to your heart? What did I do to your heart? Did I break it apart? Did I break it? Your heart Whoa

What did I do to your? What did I do to your? Yeah

What did I do to your heart? What did I do to your heart? Did I break it apart? Did I break it? Your heart

What did I do to your heart? Tell me, what did I do to your heart? Did I break it apart? Did I break it? Your heart
