Happiness And Misery

Jonny Lang

A thousand people here but im alone My only friend is my dads radio Seventeen feels like im thirty-four How do i get myself up off the floor I need a cure

Happiness and misery
Im up and down so confused
I want to scream
But theres nobody listening

Stop the war inside of me
Pull the plug, kill thelights
I cant break free
Its happiness or misery

I wish the clouds would all come out today Send the rain and wash it all away Am i going crazy i dont know I wonder will anybody miss me if i go

Happiness ad misery
Im up and down so confused
I want to scream
