

To Love Again

Jonny Lang

Id been sleeping way to long
Searched for the answers but,
Couldnt find one
Thought i had it under control
Yeah i was dying and i didnt even know

I needed something
You showed me how to love again
How to love again
When i had nothing
You showed me how to love again
How to love again

No more crying no more fear
Ive found a way out after all of these years
No mistaking, ive been changed
Now and forever ill never be the same

Because when i had nothing
You showed me how to love again
How to love again
I needed something
You showed me how to love again
How to love again

Dont wanna go back
Dont wanna go through that misery
I love where im at
Wherever you are i want to be
Youre all i need
