

# A Dream Is Longer Than The Night

Joseph Arthur

Kiss me in this long goodbye  
Hear the new born angels cry  
Watch the greed of night just die  
A heart is wider than the sky  
You question me I ask you why  
You drop me off heavy and high  
And as I fall a dream to fly  
Fills my head a wish to lie  
For sleep to come we all rely  
A heart is wider than the sky  
Heavy too we try and try

A dream is longer than the night  
You get it wrong til it is right  
It breaks you open and still you fight  
A dream is longer than the night  
A dream is longer than the night  
In its darkness the only light  
Out of blackness bursting white  
A dream is longer than the night

Our love is stronger than this war  
You want so little
