

## Out On a Limb

Joseph Arthur

Sometime, no matter when  
I wanna see you, see you again  
I wanna hold you just like the wind at night

Blowing across the land  
When you're searching for a friend  
As I'm hanging out on a limb in plain sight

And time won't run away from me  
Like you always do  
Say you will tonight

And they can't see what we've been through  
Fading memories  
Blame us too but that's alright

Walking across the floor  
Hiding behind the door  
Your shadow just disappears without light

Baby you're still a slave  
I wanna give you what you gave  
But there's nothing in your grave tonight

And time won't run away from me  
Like you always do  
Say you will tonight

And they can't see what we've been through  
Fading memories  
Hey are you still alright?

And time won't run away from me  
Like you always do  
Stay with me tonight

Sometime, no matter when  
I wanna see you, see you again  
I wanna hold you just like the wind at night

Blowing across the land  
When you're searching for a friend  
As I'm hanging out on a limb in plain sight
