

With Your Love

Juan Gabriel

I was alone, filled with sadness
Everything that I did
Just seemed to go wrong

Then you came along
And ended my madness
Filling me up with your love
And making me strong

I had no one, I was a dreamer
Dreaming of someone like you
And hoping the dream
Would come true

Just like the sunshine
You ended the rain
With your love, I forgot
I forgot, I forgot all my pain

With your love
I'm no longer lonely
Happiness is having you here

With your love
I'll never be lonely
Anymore with your love
My pain disappeared

I had no one, I was a dreamer
Dreaming of someone like you
And hoping the dream
Would come true, yeah

Just like the sunshine
You ended the rain
With your love I forgot
I forgot, I forgot
I forgot all my pain

With your love
I'm no longer lonely
Happiness is having you here

With your love
I'll never be lonely anymore
With your love
My pain disappeared

But with your love
I am no longer lonely
Happiness is having you here

With your love
I'll never be lonely anymore
With your love
My pain disappeared

My pain disappeared
My pain disappeared
With your love
