Come on, come on now what you say
Somebody say you leave today
What's this thing you're doin' to me
What's this fool you're tryin' to be
You're talkin' nothin' but a load of guff
You're tryin' to put somethin' in my lap, lap

Don't go, please don't leave me Don't go in the mornin' Don't go, please don't deceive me Don't take it away

I do, I do anything for you You make my stormy clouds blue Inside out, I'm upside down Back to front, I'm all around Don't cha leave me by myself I don't like it

So don't go, please don't leave me Don't go in the mornin' Don't go, please don't deceive me Don't take it away

Don't go, please don't leave me Don't go in the mornin' Don't go, please don't deceive me Don't take it away

Don't go, please don't leave me Don't go in the mornin' Don't go, please don't deceive me Don't take it away
