

# Rock Forever

Judas Priest

When the day is over  
I like to ease my mind  
By jucin' up my system  
With the beat of a heavy kind

I smack a bottle open  
I crank the hi-fi high  
I'm in-a seventh heaven  
Ooh, I can touch the sky

I'm in love, so in love  
And I can't stop talking 'bout my rock forever

It's got the movin' to me  
Just that I can't explain  
It's like a brilliant sunshine  
After standing in the pouring rain

My skin begins to tingle  
Ooh, right on down my back  
It's really got me fevered  
Pounding my senses flat

I'm in love, so in love  
And I can't stop talking 'bout my rock forever

Rock rock rock forever, I love it  
Rock rock rock forever, my fever  
Rock rock rock forever, always gonna  
Rock rock rock forever  
I can't stop talkin' about  
Rock  
Now get it right, boys

So when you get those blue days  
Here's just what to do  
Switch into this lifeline  
And feel it rushing through

Before you know it, blue days  
Are better left behind  
By juicin' up your system  
With this beat of a heavy kind

I'm in love, so in love  
And I can't stop talking 'bout my  
Rock forever Rock forever  
I'm gonna rock forever.
